USS Andrew Jackson (sec. 322)

The Navy planned to begin overhaul of the USS *Andrew Jackson* (SSBN 619) in March 1988.

In view of severe budget constraints, the conferees agreed to prohibit the expenditure of funds to overhaul, maintain, operate, or deploy the USS *Andrew Jackson*, with a resultant savings of \$110 million.

The conferees recognize that the service life of this 25 year old Poseidon-class submarine could, through an overhaul, be extended for only a few years. Given the limited nature of the submarine's future military utility, the conferees agreed that effective March 1, 1988, no funds could be used to overhaul, operate, maintain, or deploy the USS *Andrew Jackson*. The conferees expect the Navy to dispose of the submarine in a manner consistent with the disposition of previous Poseidon-class submarines that were withdrawn from service.

LEGISLATIVE PROVISIONS NOT ADOPTED*Funding limitation and study on dual source maintenance for F-15 aircraft*

The House bill contained a provision (sec. 310) that would prohibit the establishment of a second source for maintenance of F-15 aircraft at McClellan Air Force Base.

The Senate amendment contained no similar provision.

The House recedes.

Repeal of requirement to pay certain expenses incidental to volunteer services from nonappropriated funds

Section 1588 of title 10, United States Code, permits reimbursement with nonappropriated funds for incidental expenses of voluntary services as an ombudsman or for a family service center program.

The House bill contained a provision (sec. 313) that would repeal subsection (c) of section 1588 which limits the source of reimbursement to nonappropriated funds.

The Senate amendment contained no similar provision.

The House recedes.

Authority for contractors to settle claims relating to movement of household goods directly with owners of goods

The House bill contained a provision (sec. 317) that would provide contractors the option to settle claims arising from household goods shipments, weighing over 2,000 pounds, directly with the service member.

The Senate amendment contained no similar provision.

The House recedes.

New threat upgrade (NTU) program

The Senate amendment included a provision (sec. 326) that would deny funds to the Navy for use in the New Threat Upgrade (NTU) overhaul program for work performed under a cost-plus type contract unless the Secretary of the Navy certifies that this contract

yard, or that some overriding national security consideration exists.

The House bill contained no similar provision.

The Senate recedes.

HUMANITARIAN AND OTHER ASSISTANCE**LEGISLATIVE PROVISION ADOPTED***Extension of authorization for certain humanitarian assistance (sec. 331-332)*

The House bill contained a provision (sec. 312) that would authorize \$10 million for transporting relief supplies to Afghan refugees and would extend, for two years, the authority for space-available transportation of humanitarian supplies to certain countries in Central America.

The Senate amendment contained a provision (sec. 331) that would authorize \$13 million for Afghan supplies, and another provision (sec. 332) that would provide permanent authorization for space-available transportation for humanitarian supplies to any country in the world.

The House recedes with amendment.

TITLE IV—PERSONNEL AUTHORIZATIONS**PART A—ACTIVE FORCES****ACTIVE FORCES END STRENGTH**

Active duty military strengths for the Army, Marine Corps, and Air Force for fiscal year 1988 in the Senate amendment (sec. 401) and the House bill (sec. 401) were identical. The Navy end strength recommendations differed by a total of 1,000.

The House recedes.

The following table summarizes the conference agreement:

	Administration Request	House	Senate	Conference
Army	780,900	780,900	780,900	780,900
Navy	593,200	592,200	593,200	593,200
Marine Corps	199,600	199,600	199,600	199,600
Air Force	598,700	598,700	598,700	598,700
Total	2,172,400	2,171,400	2,172,400	2,172,400

The Senate amendment would authorize the Administration request for active duty end strengths for fiscal year 1989. The House bill contained no similar provision. The House recedes with an amendment authorizing fiscal year 1989 end strengths at fiscal year 1988 levels. The conferees emphasize that this action is taken without prejudice and that fiscal year 1989 end strength levels will be reviewed once again next year. The following table summarizes the conference agreement.

NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTICE, ARMY

The conferees agree to provide \$4,099,000 as proposed by the Senate instead of \$4,095,000 as proposed by the House.

CLAIMS, DEFENSE

The conferees agree to provide \$193,574,000, the authorization level, instead of \$273,574,000 as proposed by the House. The Senate abolished this appropriation, reduced the funds and included bill language to transfer responsibility to the services. The Senate also recommended that claims be paid by the Service that generates such a claim.

Because the House was concerned that the adjudicated NATO-SOFA maneuver damage claims were not being paid in a timely manner, it earmarked funds in the bill to be used only for this purpose.

The conferees instruct the Defense Department to bring this backlog of NATO-SOFA maneuver damage claims under control in fiscal year 1988. Transfer authority available to the Defense Department is available and should be utilized to pay all outstanding claims. If these claims are not paid as they are adjudicated, the Congress will take action, probably in line with the House or Senate actions this year, during its consideration of the fiscal year 1989 budget request.

The conferees also support the House position and request that a report on the status of these claims be submitted to the Appropriations Committees by March 31, 1988.

COURT OF MILITARY APPEALS

The conferees agree to provide \$3,241,000 as proposed by the House and Senate. The conferees agree to the reduction breakdown as proposed by the Senate.

ENVIRONMENTAL RESTORATION, DEFENSE

The conferees agree to provide \$102,800,000 as proposed by the Senate instead of \$392,800,000 as proposed by the House.

HUMANITARIAN ASSISTANCE

The conferees agree to provide \$13,000,000 as proposed by the Senate instead of \$16,000,000 as proposed by the House. The conferees further agree to the Senate bill language which extends the appropriation availability for one year and requires the Department of Defense to notify the Appropriations Committees 21 days prior to the shipment of humanitarian relief transported and distributed to countries not previously authorized by Congress.
